

### ACCOMPLISHMENTS:

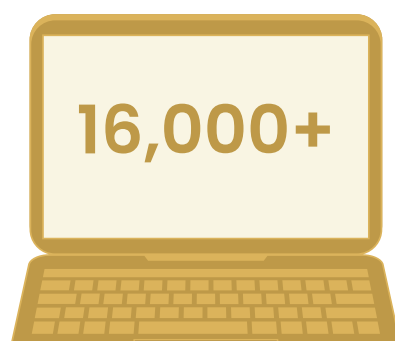

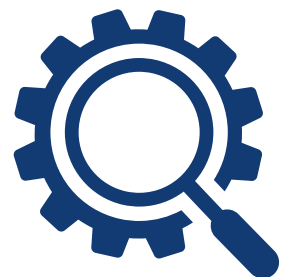

**21**

requests and analyses completed

**37** faculty and researchers, including contributors and health sciences librarians

**SIX** resources added/updated on our website

Reached 16,000+ visits on our website

#### MEDIA MENTIONS

**1** External Publication

California Health Care Foundation

Launched new website and logo

**24**

stakeholder meetings

**5** OTHER PUBLICATIONS

- Racism & health policy
- Cost sharing
- Health insurance 101
- Essential Health Benefits (x2)

**2** NEW members of the National Advisory Council

In 2023, CHBRP coordinated:

**1** Graduate Student Assistant

**2** Undergraduate Internships

**3** External Event Presentations

State-University Partnership Learning Network

#### About CHBRP

The California Health Benefits Review Program (CHBRP) responds to requests from the State Legislature to provide independent analysis of the medical, financial, and public health impacts of proposed health insurance benefit mandates and repeals. A team of analytic staff at the University of California, Berkeley works with a task force of faculty from several campuses of the University of California, as well as actuarial consultants to complete each analysis during a 60-day period, usually before the legislature begins formal consideration of a bill.
