

STATE HEALTH ALLIANCES

What's happening?

In Fall 2025, three state health alliances were established across the United States as a way to take an independent approach to public health and policies at the federal level.

West Coast Health Alliance

Stated goal: Ensuring public health recommendations are guided by safety, efficacy, transparency, access, and trust.

Alliance work: Coordinating health guidelines by aligning immunization and public health recommendations informed by national medical organizations.

Northeast Public Health Collaborative

Source: [CT, 2025](#); [DE, 2025](#); [MD, 2025](#); [VT, 2025](#).

Stated goal: To protect the health, safety and well-being of all residents by providing information based on science, data, and evidence, while working to ensure equitable access to vaccines, medications and services.

Alliance work: Promotion and protection of evidence-based public health by optimizing shared resources and reimagining core services to ensure trust in public health, respond to public health threats, advance community health and strengthen confidence in science-based medicine.

Governors Public Health Alliance

Source: govsforhealth.org

Stated purpose: Nonpartisan coordinating hub for governors and their public health leaders.

Alliance work: Supporting Governors and their states in coordinating and collaborating to protect the public's health by facilitating data sharing and communication about health threat detection, emergency preparedness and response, public health guidance and policy, and deployment of experts.
