LEGISLATIVE COUNSEL’S DIGEST

AB 1048, as introduced, Wicks. Dental benefits and rate review.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act’s requirements a crime. Existing law provides for the regulation of health insurers by the Department of Insurance. Existing law imposes specified coverage and disclosure requirements on health care service plans and health insurers, including specialized plans and insurers, that cover dental services.

This bill, on and after January 1, 2024, would prohibit a health care service plan or health insurer that covers dental services, and a specialized health care service plan or health insurer that covers dental services, from issuing, amending, renewing, or offering a plan contract or policy that imposes a dental waiting period provision or preexisting condition provision, as defined, upon an enrollee or insured. On and after January 1, 2024, the bill also would require a health care service plan or health insurer to disclose, at the time of verification for patient eligibility, whether or not the enrollee’s or insured’s dental coverage is subject to regulation by the relevant department. Because a violation
of these requirements by a health care service plan would be a crime, the bill would impose a state-mandated local program.

Existing law establishes a process for the Department of Managed Health Care and the Department of Insurance to review proposed rate increases by health care service plans and health insurers in the individual or group market in California. Existing law excludes specialized health care service plan contracts and specialized health insurance policies, among others, from those provisions.

This bill would include health care service plan contracts and health insurance policies covering dental services, and specialized health care service plan contracts and specialized health insurance policies covering dental services, within those provisions. The bill would retain the exclusion with respect to specialized health care service plan contracts and specialized health insurance policies that do not provide dental services. The bill would require the Department of Managed Health Care and the Department of Insurance to establish the appropriate methodology, factors, and assumptions to determine whether a rate change for a specialized health care service plan contract or specialized health insurance policy covering dental services is unreasonable, or not justified, under the applicable requirements of the rate review provisions. By making specialized health care service plan contracts that provide dental services subject to these rate review provisions, the bill would expand the scope of a crime, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.
