An act to add Title 23 (commencing with Section 100600) to the Government Code, relating to health care coverage, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

AB 1900, as introduced, Kalra. Guaranteed Health Care for All.

Existing federal law, the federal Patient Protection and Affordable Care Act (PPACA), requires each state to establish an American Health Benefit Exchange to facilitate the purchase of qualified health benefit plans by qualified individuals and qualified small employers. PPACA defines a “qualified health plan” as a plan that, among other requirements, provides an essential health benefits package. Existing state law creates the California Health Benefit Exchange, also known as Covered California, to facilitate the enrollment of qualified individuals and qualified small employers in qualified health plans as required under PPACA.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975 (Knox-Keene), provides for the licensure and regulation of health care

service plans by the Department of Managed Health Care. Existing law provides for the regulation of health insurers by the Department of Insurance. Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions.

This bill, the California Guaranteed Health Care for All Act, would create the California Guaranteed Health Care for All program, or CalCare, to provide comprehensive universal single-payer health care coverage and a health care cost control system for the benefit of all residents of the state. Under the bill, CalCare would be a health care service plan subject to Knox-Keene. The bill, among other things, would provide that CalCare cover a wide range of medical benefits and other services and would incorporate the health care benefits and standards of other existing federal and state provisions, including the federal Children's Health Insurance Program, Medi-Cal, ancillary health care or social services covered by regional centers for persons with developmental disabilities, Knox-Keene, and the federal Medicare Program. The bill would make specified persons eligible to enroll as CalCare members during the implementation period, and would provide for automatic enrollment. The bill would require the board to seek all necessary waivers, approvals, and agreements to allow various existing federal health care payments to be paid to CalCare, which would then assume responsibility for all benefits and services previously paid for with those funds.

This bill would create the CalCare Board to govern CalCare, made up of 9 voting members with demonstrated and acknowledged expertise in health care, and appointed as provided, plus the Secretary of California Health and Human Services or their designee as a nonvoting, ex officio member. The bill would provide the board with all the powers and duties necessary to establish CalCare, including determining when individuals may start enrolling into CalCare, employing necessary staff, negotiating pricing for covered pharmaceuticals and medical supplies, establishing a prescription drug formulary, and negotiating and entering into necessary contracts. The bill would require the board, on or before July 1 of an unspecified year, to conduct and deliver a fiscal analysis to determine whether or not CalCare may be implemented and if revenue is more likely than not to pay for program costs, as specified. The bill would establish an Advisory Committee on Long-Term Services and

Supports to advise the board on matters of policy related to long-term services and supports. The bill would require the board to convene a CalCare Public Advisory Commission to advise the board on all matters of policy for CalCare, an Advisory Committee on Public Employees' Retirement System Health Benefits to provide recommendations related to public employee retiree health benefits, and a CalCare Health Workforce Working Group to provide the board with input on issues related to health care workforce education, recruitment, and retention. The bill would establish an Office of Health Equity within CalCare and under the direction of the Director of the Department of Health Care Access and Information to ensure health equity under the program and other health programs of the California Health and Human Services Agency and to support the board through specified actions.

This bill would provide for the participation of health care providers in CalCare, including the requirements of a participation agreement between a health care provider and the board, provide for payment for health care items and services, and specify program participation standards. The bill would prohibit a participating provider from discriminating against a person by, among other things, reducing or denying a person's benefits under CalCare because of a specified characteristic, status, or condition of the person.

This bill would prohibit a participating provider from billing or entering into a private contract with an individual eligible for CalCare benefits regarding a covered benefit, but would authorize contracting for a health care item or service that is not a covered benefit if specified criteria are met. The bill would authorize health care providers to collectively negotiate fee-for-service rates of payment for health care items and services using a 3rd-party representative, as provided. The bill would require the board to annually determine an institutional provider's global budget, to be used to cover operating expenses related to covered health care items and services for that fiscal year, and would authorize payments under the global budget.

This bill would state the intent of the Legislature to enact legislation that would develop a revenue plan, taking into consideration anticipated federal revenue available for CalCare. The bill would create the CalCare Trust Fund in the State Treasury, as a continuously appropriated fund, consisting of any federal and state moneys received for the purposes of the act. The bill would specify uses for moneys in the CalCare budget, including special projects for which not-for-profit or governmental

entities may apply. Because the bill would create a continuously appropriated fund, it would make an appropriation.

This bill would prohibit specified provisions of this act from becoming operative until the Secretary of California Health and Human Services gives written notice to the Secretary of the Senate and the Chief Clerk of the Assembly that the CalCare Trust Fund has the revenues to fund the costs of implementing the act. The California Health and Human Services Agency would be required to publish a copy of the notice on its internet website.

Existing constitutional provisions require that a statute that limits the right of access to the meetings of public bodies or the writings of public officials and agencies be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest.

This bill would make legislative findings to that effect.

Vote: majority. Appropriation: yes. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

1 SECTION 1. (a) The Legislature finds and declares all of the  
2 following:

3 (1) Although the federal Patient Protection and Affordable Care  
4 Act (PPACA) brought many improvements in health care and  
5 health care coverage, PPACA still leaves many Californians  
6 without coverage or with inadequate coverage.

7 (2) Californians, as individuals, employers, and taxpayers, have  
8 experienced a rise in the cost of health care and health care  
9 coverage in recent years, including rising premiums, deductibles,  
10 and copayments, as well as restricted provider networks and high  
11 out-of-network charges.

12 (3) Businesses have also experienced increases in the costs of  
13 health care benefits for their employees, and many employers are  
14 shifting a larger share of the cost of coverage to their employees  
15 or dropping coverage entirely.

16 (4) Individuals often find that they are deprived of affordable  
17 care and choice because of decisions by health benefit plans guided  
18 by the plan's economic needs rather than patients' health care  
19 needs.

1       (5) Out-of-pocket health care costs for Californians are projected  
2 to nearly double in 2026 and 3,400,000 million Californians are  
3 expected to lose health care coverage as a result of federal health  
4 care cuts.

5       (6) To address the fiscal crisis facing the health care system and  
6 the state, and to ensure Californians get the health care they need,  
7 comprehensive health care coverage needs to be provided.

8       (7) Billions of dollars that could be spent on providing equal  
9 access to health care are wasted on administrative costs necessary  
10 in a multipayer health care system. Resources and costs spent on  
11 administration would be dramatically reduced in a single-payer  
12 system, allowing health care professionals and hospitals to focus  
13 on patient care instead.

14      (8) It is the intent of the Legislature to establish a comprehensive  
15 universal single-payer health care coverage program and a health  
16 care cost control system for the benefit of all residents of the state.

17      (b) (1) It is further the intent of the Legislature to establish the  
18 California Guaranteed Health Care for All program to provide  
19 universal health care coverage for every Californian, funded by  
20 broad-based revenue.

21      (2) It is the intent of the Legislature to first pass policy  
22 legislation to initiate a transition to the California Guaranteed  
23 Health Care for All program and that the California Guaranteed  
24 Health Care for All program shall not become operative until the  
25 Secretary of California Health and Human Services notifies the  
26 Legislature that the CalCare Trust Fund has the revenues to fund  
27 the costs of implementing the program.

28      (3) It is the intent of the Legislature to establish the CalCare  
29 Board that governs the California Guaranteed Health Care for All  
30 program and to convene the CalCare Public Advisory Commission  
31 before the program becomes operative in order to develop a  
32 transition plan and to ensure a seamless transition to CalCare.

33      (4) It is the intent of the Legislature to work to obtain waivers  
34 and other approvals relating to Medi-Cal, the federal Children's  
35 Health Insurance Program, Medicare, PPACA, and any other  
36 federal programs pertaining to the provision of health care so that  
37 any federal funds and other subsidies that would otherwise be paid  
38 to the State of California, Californians, and health care providers  
39 would be paid by the federal government to the State of California  
40 and deposited in the CalCare Trust Fund.

1       (5) Under those waivers and approvals, those funds would be  
2 used for health care coverage that provides health care benefits  
3 equal to or exceeded by those programs as well as other program  
4 modifications, including elimination of cost sharing and insurance  
5 premiums.

6       (6) Those programs would be replaced and merged into CalCare,  
7 which will operate as a true single-payer program.

8       (7) If any necessary waivers or approvals are not obtained, it is  
9 the intent of the Legislature that the state use state plan  
10 amendments and seek waivers and approvals to maximize, and  
11 make as seamless as possible, the use of funding from federally  
12 matched public health programs and other federal health programs  
13 in CalCare.

14      (8) Even if other programs, including Medi-Cal or Medicare,  
15 may contribute to paying for care, it is the goal of this act that the  
16 coverage be delivered by CalCare, and, as much as possible, that  
17 the multiple sources of funding be pooled with other CalCare  
18 program funds.

19      (9) It is the intent of the Legislature to provide universal health  
20 care coverage with greater benefits and access to providers than  
21 existing health coverage plans, including for Californians who  
22 primarily receive care through an integrated health care delivery  
23 system, that is free at the point of service and does not have  
24 deductibles, coinsurance, premiums, or other cost-sharing.

25      (c) This act does not create an employment benefit, nor does  
26 the act require, prohibit, or limit providing a health care  
27 employment benefit.

28      (d) (1) It is not the intent of the Legislature to change or impact  
29 in any way the role or authority of a licensing board or state agency  
30 that regulates the standards for or provision of health care and the  
31 standards for health care providers as established under current  
32 law, including the Business and Professions Code, the Health and  
33 Safety Code, the Insurance Code, and the Welfare and Institutions  
34 Code.

35      (2) This act would in no way authorize the CalCare Board, the  
36 California Guaranteed Health Care for All program, or the  
37 Secretary of California Health and Human Services to establish  
38 or revise licensure standards for health care professionals or  
39 providers.

1       (e) It is the intent of the Legislature that neither health  
2 information technology nor clinical practice guidelines limit the  
3 effective exercise of the professional judgment of physicians,  
4 registered nurses, and other licensed health care professionals.  
5 Physicians, registered nurses, and other licensed health care  
6 professionals shall be free to override health information  
7 technology and clinical practice guidelines if, in their professional  
8 judgment and in accordance with their scope of practice and  
9 licensure, it is in the best interest of the patient and consistent with  
10 the patient's wishes.

11      (f) (1) It is the intent of the Legislature to prohibit CalCare, a  
12 state agency, a local agency, or a public employee acting under  
13 color of law from providing or disclosing to anyone, including the  
14 federal government, any personally identifiable information  
15 obtained, including a person's religious beliefs, practices, or  
16 affiliation, national origin, ethnicity, or immigration status, for law  
17 enforcement or immigration purposes.

18      (2) This act would also prohibit law enforcement agencies from  
19 using CalCare's funds, facilities, property, equipment, or personnel  
20 to investigate, enforce, or assist in the investigation or enforcement  
21 of a criminal, civil, or administrative violation or warrant for a  
22 violation of any requirement that individuals register with the  
23 federal government or any federal agency based on religion,  
24 national origin, ethnicity, immigration status, or other protected  
25 category as recognized in the Unruh Civil Rights Act (Part 2  
26 (commencing with Section 51) of Division 1 of the Civil Code).

27      (g) It is the further intent of the Legislature to address the high  
28 cost of prescription drugs and ensure they are affordable for  
29 patients.

30      SEC. 2. Title 23 (commencing with Section 100600) is added

17 in that city, county, or city and county that provides more

25 services in the least restrictive and most integrated setting  
26 appropriate to the member's needs.

27 (7) Be provided in a manner that allows persons with disabilities  
28 to maintain their independence, self-determination, and dignity.

29 (8) Provide long-term services and supports that are of equal  
30 quality and equitably accessible across geographic regions.

31 (9) Ensure that long-term services and supports provide  
32 recipients the option of self-direction of service, including under  
33 the Self-Directed Services Program described in Division 4.5  
34 (commencing with Section 4500) of the Welfare and Institutions  
35 Code, from either the recipient or care coordinators of the  
36 recipient's choosing.

37 (d) In developing regulations to implement this section, the  
38 board shall consult the advisory committee on LTSS established  
39 pursuant to Section 100614.

1       100637. (a) (1) The board shall, on a regular basis and at least  
2 annually, evaluate whether the benefits under CalCare should be  
3 expanded or adjusted to promote the health of members and  
4 California residents, account for changes in medical practice or  
5 new information from medical research, or respond to other  
6 relevant developments in health science.

7       (2) In implementing this section, the board shall not remove or  
8 eliminate covered health care items and services under CalCare  
9 that are listed in this chapter.

10      (b) The board shall establish a process by which health care  
11 professionals, other clinicians, and members may petition the board  
12 to add or expand benefits to CalCare.

13      (c) The board shall establish a process by which individuals  
14 may bring a disputed health care item or service or a coverage  
15 decision for review to the Independent Medical Review System  
16 established in the Department of Managed Health Care pursuant  
17 to Article 5.55 (commencing with Section 1374.30) of Chapter  
18 2.2 of Division 2 of the Health and Safety Code.

19      (d) For the purposes of this chapter:

20       (1) “Coverage decision” means the approval or denial of health  
21 care items or services by a participating provider or a health care  
22 professional who is employed by or otherwise receives  
23 compensation or payment for items and services furnished under  
24 CalCare from a participating provider, substantially based on a  
25 finding that the provision of a particular service is included or  
26 excluded as a covered item or service under CalCare. A “coverage  
27 decision” does not encompass a decision regarding a disputed  
28 health care item or service.

29       (2) “Disputed health care item or service” means a health care  
30 item or service eligible for coverage and payment under CalCare  
31 that has been denied, modified, or delayed by a decision of a  
32 participating provider or a health care professional who is  
33 employed by or otherwise receives compensation or payment for  
34 health care items and services furnished under CalCare from a  
35 participating provider, in whole or in part, due to a finding that the  
36 service is not medically necessary or appropriate. A decision  
37 regarding a disputed health care item or service relates to the  
38 practice of medicine, including early discharge from an institutional  
39 provider, and is not a coverage decision.

1                   CHAPTER 5. DELIVERY OF CARE  
23                   Article 1. Health Care Providers  
4

5                   100640. (a) (1) A health care provider or entity is qualified  
6 to participate as a provider in CalCare if the health care provider  
7 furnishes health care items and services while the provider, or, if  
8 the provider is an entity, the individual health care professional of  
9 the entity furnishing the health care items and services, is  
10 physically present within the State of California, and if the provider  
11 meets all of the following:

21 standards for recognizing health care providers located out of the  
22 state for purposes of providing coverage under CalCare for  
23 members who require out-of-state health care services while the  
24 member is temporarily located out of the state.

25                  (b) A provider or entity shall not be qualified to furnish health  
26 care items and services under CalCare if the provider or entity  
27 does not provide health care items or services directly to  
28 individuals, including the following:

29                  (1) Entities or providers that contract with other entities or  
30 providers to provide health care items and services shall not be  
31 considered a qualified provider for those contracted items and  
32 services.

33                  (2) Entities that are approved to coordinate care plans under the  
34 Medicare Advantage program established in Part C of Title XVIII  
35 of the federal Social Security Act (42 U.S.C. Sec. 1851 et seq.) as  
36 of January 1, 2020, but do not directly provide health care items  
37 and services.

38                  (c) A health care provider qualified to participate under this  
39 section may provide covered health care items or services under  
40 CalCare, as long as the health care provider is legally authorized

1 to provide the health care item or service for the individual and  
2 under the circumstances involved.

3 (d) (1) The board shall establish and maintain procedures for  
4 members and individuals eligible to enroll in CalCare to enroll  
5 onsite at a participating provider.

6 (2) A participating provider shall accept onsite enrollment of  
7 members and eligible individuals under the procedures established  
8 pursuant to paragraph (1).

9 (e) The board shall establish and maintain procedures and  
10 standards for members to select a primary care provider, which  
11 may be an internist, a pediatrician, a physician who practices family  
12 medicine, a gynecologist, a physician who practices geriatric  
13 medicine, or, at the option of a member who has a chronic  
14 condition that requires specialty care, a specialist health care  
15 professional who regularly and continually provides treatment to  
16 the member for that condition, and other participating providers.

17 (f) A referral from a primary care provider is not required for  
18 a member to see a participating provider.

19 (g) A member may choose to receive health care items and  
20 services under CalCare from a participating provider, subject to  
21 the willingness or availability of the provider, and consistent with  
22 the provisions of this title relating to discrimination, and the  
23 appropriate clinically relevant circumstances and standards.

24 100641. (a) A health care provider shall enter into a  
25 participation agreement with the board to qualify as a participating  
26 provider under CalCare.

27 (b) A participation agreement between the board and a health  
28 care provider shall include provisions for at least the following,  
29 as applicable to each provider:

30 (1) Health care items and services to members shall be furnished  
31 by the provider without discrimination, as required by Section  
32 100631. This paragraph does not require the provision of a type  
33 or class of health care items or services that are outside the scope  
34 of the provider's normal practice.

35 (2) A charge shall not be made to a member for a covered health  
36 care item or service, other than for payment authorized by this  
37 title. Except as described in Section 100644, a contract shall not  
38 be entered into with a patient for a covered health care item or  
39 service.

1       (3) The provider shall follow the policies and procedures in the  
2 CalCare Contracting Manual established pursuant to Section

12 of this title.

13      (D) Other purposes specified by the board.

14      (5) If the provider is not an individual, the provider shall not  
15 employ or use an individual or other provider that has had a  
16 participation agreement terminated for cause to provide covered  
17 health care items and services.

18      (6) If the provider is paid on a fee-for-service basis for covered  
19 health care items and services, the provider shall submit bills and  
20 required supporting documentation relating to the provision of  
21 covered health care items or services within 30 days after the date  
22 of providing those items or services.

23      (7) The provider shall submit information and any other required  
24 supporting documentation reasonably required by the board on a  
25 quarterly basis that relates to the provision of covered health care  
26 items and services and describes health care items and services  
27 furnished with respect to specific individuals.

28      (8) (A) If the provider receives payment based on provider data  
29 on diagnosis-related coding, procedure coding, or other coding  
30 system or data, the provider shall disclose the following to the  
31 board:

32       (i) Any case mix indexes, diagnosis coding software, procedure  
33 coding software, or other coding system utilized by the provider  
34 for the purposes of meeting payment, global budget, or other  
35 disclosure requirements under this title.

36       (ii) Any case mix indexes, diagnosis coding guidelines,  
37 procedure coding guidelines, or coding tip sheets used by the  
38 provider for the purposes of meeting payment or disclosure

2 diagnosis-related coding, procedure coding, or other coding system  
3 or data, the provider shall not do the following:

4       (i) Use proprietary case mix indexes, diagnosis coding software,  
5 procedure coding software, or other coding system for the purposes  
6 of meeting payment, global budget, or other disclosure  
7 requirements under this title.

8       (ii) Require another health care professional to apply case mix  
9 indexes, diagnosis coding software, procedure coding software,  
10 or other coding system in a manner that limits the clinical  
11 diagnosis, treatment process, or a treating health care professional's  
12 judgment in determining a diagnosis or treatment process, including  
13 the use of leading queries or prohibitions on using certain codes.

14       (iii) Provide financial incentives or disincentives to physicians,  
15 registered nurses, or other health care professionals for particular  
16 coding query results or code selections.

17       (iv) Use case mix indexes, diagnosis coding software, procedure  
18 coding software, or other coding system that make suggestions for  
19 higher severity diagnoses or higher cost procedure coding.

20       (9) The provider shall comply with the duty of patient advocacy  
21 and reporting requirements described in Section 100661.

22       (10) If the provider is not an individual, the provider shall ensure  
23 that a board member, executive, or administrator of the provider  
24 shall not receive compensation from, own stock or have other  
25 financial investments in, or receive services as a board member of  
26 an entity that contracts with or provides health care items or  
27 services, including pharmaceutical products and medical devices  
28 or equipment, to the provider.

29       (11) If the provider is a not-for-profit hospital subject to Article  
30 2 (commencing with Section 127340) of Chapter 2 of Part 2 of  
31 Division 107 of the Health and Safety Code, the hospital shall  
32 submit to the board the community benefits plan developed  
33 pursuant to Article 2 (commencing with Section 127340) of the  
34 Health and Safety Code.

35       (12) Health care items and services to members shall be  
36 furnished by a health care professional while the professional is  
37 physically present within the State of California.

38       (13) The provider shall not enter into risk-bearing, risk-sharing,  
39 or risk-shifting agreements with other health care providers or  
40 entities other than CalCare.

1       (c) This section does not limit the formation of group practices.  
2       100642. (a) A participation agreement may be terminated with  
3 appropriate notice by the board for failure to meet the requirements  
4 of this title or may be terminated by a provider.

5       (b) A participating provider shall be provided notice and a  
6 reasonable opportunity to correct deficiencies before the board  
7 terminates an agreement, unless a more immediate termination is  
8 required for public safety or similar reasons.

9       (c) The procedures and penalties under the Medi-Cal program

12 participation agreement in effect may bill or enter into a private

6       (4) A participating provider that enters into a contract described

24 (iv) The individual understands that the limits under CalCare  
25 do not apply to amounts that may be charged for the health care  
26 item or service.

27 (v) The individual understands that the provider is providing

35 (3) Maintaining an optimal workforce and the health care  
36 facilities necessary to deliver quality, equitable health care.

37 (b) (1) Payment for health care items and services shall be  
38 considered payment in full.

39 (2) A participating provider shall not charge a rate in excess of  
40 the payment established through CalCare for a health care item or

1 service furnished under CalCare and shall not solicit or accept  
2 payment from any member or third party for a health care item or  
3 service furnished under CalCare, except as provided under a federal  
4 program.

5 (3) This section does not preclude CalCare from acting as a  
6 primary or secondary payer in conjunction with another third-party  
7 payer when permitted by a federal program.

8 (c) Not later than the beginning of each fiscal quarter during  
9 which an institutional provider of care, including a hospital, skilled  
10 nursing facility, and chronic dialysis clinic, is to furnish health  
11 care items and services under CalCare, the board shall pay to each  
12 institutional provider a lump sum to cover all operating expenses  
13 under a global budget as set forth in Section 100651. An  
14 institutional provider receiving a global budget payment shall  
15 accept that payment as payment in full for all operating expenses  
16 for health care items and services furnished under CalCare, whether  
17 inpatient or outpatient, by the institutional provider.

18 (d) (1) A group practice, county organized health system, or  
19 local initiative practice may elect to be paid for health care items  
20 and services furnished under CalCare either on a fee-for-service  
21 basis under Section 100655 or on a salaried basis.

22 (2) A group practice, county organized health system, or local  
23 initiative practice that elects to be paid on a salaried basis shall  
24 negotiate salaried payment rates with the board annually, and the  
25 board shall pay the group practice, county organized health system,  
26 or local initiative at the beginning of each month.

27 (3) The board may determine whether a group practice, county  
28 organized health system, or local initiative practice may elect to  
29 be paid on an hourly or other time-based rate for certain health  
30 care items and services furnished under CalCare, including primary  
31 and preventive care and care coordination.

32 (e) Health care items and services provided to members under  
33 CalCare by individual providers or any other providers not paid  
34 under subdivision (c) or (d) shall be paid for on a fee-for-service  
35 basis under Section 100655.

36 (f) Capital-related expenses for specifically identified capital  
37 expenditures incurred by participating providers shall meet the  
38 requirements under Section 100656.

39 (g) Payment methodologies and payment rates shall include a  
40 distinct component of reimbursement for direct and indirect costs

1 incurred by the institutional provider for graduate medical  
2 education, as applicable.

3 (h) The board shall adopt, by regulation, payment methodologies  
4 and procedures for paying for out-of-state health care services.

5 (i) (1) This article does not regulate, interfere with, diminish,  
6 or abrogate a collective bargaining agreement, established  
7 employee rights, or the right, obligation, or authority of a collective  
8 bargaining representative under state or local law.

9 (2) This article does not compel, regulate, interfere with, or  
10 duplicate the provisions of an established training program that is  
11 operated under the terms of a collective bargaining agreement or  
12 unilaterally by an employer or bona fide labor union.

13 (j) The board shall determine the appropriate use and allocation  
14 of the special projects budget for the construction, renovation, or  
15 staffing of health care facilities in rural, underserved, or health  
16 professional or medical shortage areas, and to address health  
17 disparities, including those based on race, ethnicity, national origin,  
18 primary language use, age, disability, sex, including gender identity  
19 and sexual orientation, geography, and socioeconomic status.

20 100651. (a) An institutional provider's global budget shall be  
21 determined before the start of a fiscal year through negotiations  
22 between the provider and the board. The global budget shall be  
23 negotiated annually based on the payment factors described in  
24 subdivision (d).

25 (b) An institutional provider's global budget shall be used only  
26 to cover operating expenses associated with direct care for patients  
27 for health care items and services covered under CalCare. An  
28 institutional provider's global budget shall not be used for capital  
29 expenditures, and capital expenditures shall not be included in the  
30 global budget.

31 (c) The board, on a quarterly basis, shall review whether  
32 requirements of the institutional provider's participation agreement  
33 and negotiated global budget have been performed and shall  
34 determine whether adjustment to the institutional provider's  
35 payment is warranted.

36 (d) A payment negotiated pursuant to subdivision (a) shall take  
37 into account, with respect to each provider, all of the following:

38 (1) The historical volume of services provided for each health  
39 care item and service in the previous three-year period.

1       (2) The actual expenditures of a provider in the provider's most  
2 recent Medicare cost report for each health care item and service,  
3 or other cost report that may otherwise be adopted by the board,  
4 compared to the following:

5       (A) The expenditures of other comparable institutional providers  
6 in the state.

7       (B) The normative payment rates established under the  
8 comparative payment rate systems pursuant to Section 100654,  
9 including permissible adjustments to the rates for the health care  
10 items and services.

11      (C) Projected changes in the volume and type of health care  
12 items and services to be furnished.

13      (D) Employee wages and compensation.

14      (E) The provider's maximum capacity to provide health care  
15 items and services.

16      (F) Education and prevention programs.

17      (G) Health care workforce recruitment and retention programs,  
18 including programs to maintain optimal staffing levels of health  
19 care workers as established by the board and to maintain mandatory  
20 minimum safe registered nurse-to-patient ratio regulations adopted  
21 pursuant to Section 1276.4 of the Health and Safety Code.

22      (H) Permissible adjustments to the provider's operating budget  
23 from the previous fiscal year due to factors including an increase  
24 in primary or specialty care access, efforts to decrease health care  
25 disparities in rural or medically underserved areas, a response to  
26 emergent conditions, and proposed changes to patient care  
27 programs at the institutional level.

28      (I) Any other factor determined appropriate by the board.

29      (3) In a rural or medically underserved area, the need to mitigate  
30 the impact of the availability and accessibility of health care  
31 services through increased global budget payment.

32      (e) A payment negotiated pursuant to subdivision (a) or payment  
33 methodology shall not do any of the following:

34      (1) Take into account capital expenditures of the provider or  
35 any other expenditure not directly associated with furnishing health  
36 care items and services under CalCare.

37      (2) Be used by a provider for capital expenditures or other  
38 expenditures associated with capital projects.

39      (3) Exceed the provider's capacity to furnish health care items  
40 and services covered under CalCare.

1       (4) Be used to pay or otherwise compensate a board member,  
2 executive, or administrator of the institutional provider who has  
3 an interest or relationship prohibited under paragraph (10) of  
4 subdivision (b) of Section 100641 or paragraph (3) of subdivision  
5 (c) of Section 100661.

6       (5) Take into account relief pending appeal granted to a provider  
7 under Section 100653.

8       (f) The board may negotiate changes to an institutional  
9 provider's global budget based on factors not prohibited under  
10 subdivision (e) or any other provision of this title.

11     (g) Subject to subdivision (i) of Section 100650, compensation  
12 costs for an employee, contractor employee, or subcontractor  
13 employee of an institutional provider receiving a global budget  
14 shall meet the compensation cap established in Section 4304(a)(16)  
15 of Title 41 of the United States Code and its implementing  
16 regulations, except that the board may establish one or more  
17 narrowly targeted exceptions for scientists, engineers, or other  
18 specialists upon a determination that those exceptions are needed  
19 to ensure CalCare continued access to needed skills and  
20 capabilities.

21     (h) A payment to an institutional provider pursuant to this  
22 section shall not allow a participating provider to retain revenue  
23 generated from outsourcing health care items and services covered  
24 under CalCare, unless that revenue was considered part of the  
25 global budget negotiation process. This subdivision shall apply to  
26 revenue from outsourcing health care items and services that were  
27 previously furnished by employees of the participating provider  
28 who were subject to a collective bargaining agreement.

29     (i) For the purposes of this section, "operating expenses" of a  
30 provider include the following:

31       (1) The costs associated with covered health care items and  
32 services under CalCare, including the following:

33       (A) Compensation for health care professionals, ancillary staff,  
34 and services employed or otherwise paid by an institutional  
35 provider.

36       (B) Pharmaceutical products administered by health care  
37 professionals at the institutional provider's facility or facilities.

38       (C) Purchasing supplies.

39       (D) Maintenance of medical devices and health care  
40 technologies, including diagnostic testing equipment, except that

1 health information technology that is not necessary to comply with  
2 data collection and reporting requirements under this title or  
3 otherwise required by law and artificial intelligence shall be  
4 considered capital expenditures, unless otherwise determined by  
5 the board.

6 (E) Incidental services necessary for safe patient care.

7 (F) Patient care, education, and preventive health programs, and  
8 necessary staff to implement those programs.

9 (G) Occupational health and safety programs and public health  
10 programs, and necessary staff to implement those programs for  
11 the continued education and health and safety of clinicians and  
12 other individuals employed by the institutional provider.

13 (H) Infectious disease response preparedness, including the  
14 maintenance of a one-year or 365-day stockpile of personal  
15 protective equipment, occupational testing and surveillance, and  
16 contact tracing.

17 (I) Recruitment, retention, and training of health care  
18 professionals, ancillary staff, and services employed or otherwise  
19 paid by an institutional provider, including programs to maintain  
20 optimal staffing levels of health care workers as established by the  
21 board and to maintain mandatory minimum safe registered  
22 nurse-to-patient ratio regulations adopted pursuant to Section  
23 1276.4 of the Health and Safety Code.

24 (2) Administrative costs of the institutional provider.

25 100652. (a) The board shall consider a request for interim  
26 payment, filed by an institutional provider that is subject to the  
27 payments or global budget, or filed by health care workers of an  
28 institutional provider that is subject to the payment or global budget  
29 or their representatives, based on the following:

30 (1) The overall financial condition of the institutional provider,  
31 including bankruptcy or financial solvency.

32 (2) Excessive risks to the ongoing operation of the institutional  
33 provider.

34 (3) Justifiable differences in costs among providers, including  
35 providing a service not available from other providers in the region,  
36 or the need for health care services in rural areas with a shortage  
37 of health professionals or medically underserved areas and  
38 populations.

1       (4) Factors that led to increased costs for the institutional  
2 provider that can reasonably be considered to be unanticipated and  
3 out of the control of the provider. Those factors may include:

4       (A) Natural disasters.  
5       (B) Outbreaks of epidemics or infectious diseases.  
6       (C) Unanticipated facility or equipment repairs or purchases.  
7       (D) Significant and unanticipated increases in pharmaceutical  
8 or medical device prices.  
9       (E) Public health emergencies.

10      (5) Changes in state or federal laws that result in a change in  
11 costs.

12      (6) Reasonable increases in labor costs, including salaries and  
13 benefits, and changes in collective bargaining agreements,  
14 prevailing wage, or local law.

15      (b) The board shall establish uniform written procedures under  
16 which it reviews requests for interim payment pursuant to  
17 subdivision (a), including procedures to provide immediate  
18 payment in the event of a public health emergency.

19      (c) On a quarterly basis, the board shall review the global budget  
20 and payments to institutional providers that are not-for-profit or  
21 governmental entities and may initiate an interim payment review  
22 under subdivision (b) based on the factors set forth in this section.

23      100653. (a) The board shall consider an appeal of payments,  
24 the global budget, or a determination of a request for interim  
25 payment, filed by an institutional provider that is subject to the  
26 payment or global budget or filed by health care workers of an  
27 institutional provider that is subject to the payment or global budget  
28 or their representatives.

29      (b) (1) The payments set and global budget negotiated by the  
30 board to be paid to the institutional provider shall stay in effect  
31 during the appeal process, subject to relief pending appeal under  
32 this subdivision.

33      (2) The board shall have the power to grant interim relief based  
34 on fairness. The board shall develop regulations governing interim  
35 relief. The board shall establish uniform written procedures for  
36 the submission, processing, and consideration of an interim relief  
37 appeal by an institutional provider. A decision on interim relief  
38 shall be granted within one month of the filing of an interim relief  
39 appeal. An institutional provider shall certify in its interim relief  
40 appeal that the request is made on the basis that the challenged

1 amount is arbitrary and capricious, or that the institutional provider  
2 has experienced a bona fide emergency based on unanticipated  
3 costs or costs outside the control of the entity, including those  
4 described in paragraph (4) of subdivision (a) of Section 100652.

5 (c) (1) In accordance with the Administrative Procedure Act  
6 (Chapter 3.5 (commencing with Section 11340) of Part 1 of  
7 Division 3 of Title 2), the board may delegate the conduct of a  
8 hearing to an administrative law judge, who shall issue a proposed  
9 decision with findings of fact and conclusions of law.

10 (2) The administrative law judge may hold evidentiary hearings  
11 and shall issue a proposed decision with findings of fact and  
12 conclusions of law, including a recommended adjusted payment  
13 or global budget, within four months of the filing of the appeal.

14 (3) Within 30 days of receipt of the proposed decision by the  
15 administrative law judge, the board may approve, disapprove, or  
16 modify the decision, and shall issue a final decision for the  
17 appealing institutional provider.

18 (d) A final determination by the board shall be subject to judicial  
19 review pursuant to Section 1094.5 of the Code of Civil Procedure.

20 100654. (a) The board shall use existing Medicare prospective  
21 payment systems to establish and serve as the comparative payment  
22 rate system in global budget negotiations described in subparagraph  
23 (B) of paragraph (2) of subdivision (d) of Section 100651. The  
24 board shall update the comparative payment rate system annually.

25 (b) To develop the comparative payment rate system, the board  
26 shall use only the operating base payment rates under each  
27 Medicare prospective payment system with applicable adjustments.

28 (c) The comparative rate system shall not include value-based  
29 purchasing adjustments or capital expenses base payment rates  
30 that may be included in Medicare prospective payment systems.

31 (d) In the first year that global budget payments are available  
32 to institutional providers, and for purposes of selecting a  
33 comparative payment rate system used during initial global budget  
34 negotiations for an institutional provider, the board shall take into  
35 account the appropriate Medicare prospective payment system  
36 from the most recent year to determine what operating base  
37 payment the institutional provider would have been paid for  
38 covered health care items and services furnished the preceding  
39 year with applicable adjustments, excluding value-based purchasing  
40 adjustments, based on the prospective payment system.

1 100655. (a) The board shall engage in good faith negotiations  
2 with health care providers' representatives under Chapter 8  
3 (commencing with Section 100685) to determine rates of  
4 fee-for-service payments for health care items and services  
5 furnished under CalCare.

6 (b) There shall be a rebuttable presumption that the Medicare  
7 fee-for-service rates of reimbursement constitute reasonable  
8 fee-for-service payment rates. The fee schedule shall be updated  
9 annually.

10 (c) Payments to individual providers under this article shall not  
11 include payments to individual providers in salaried positions at  
12 institutional providers receiving global budgets under Section  
13 100651 or individual health care professionals who are employed  
14 by or otherwise receive compensation or payment for health care  
15 items and services furnished under CalCare from group practices  
16 that receive payment under CalCare on a salaried basis.

17 (d) To establish the fee-for-service payment rates, the board  
18 shall ensure that the fee schedule compensates physicians and other  
19 health care professionals at a rate that reflects the value for health  
20 care items and services furnished.

21 (e) In a rural or medically underserved area, the board may  
22 mitigate the impact of the availability and accessibility of health  
23 care services through increased individual provider payment.

24 (f) The board shall consider a request for interim payment, filed  
25 by a health care provider that is subject to the payments under this  
26 section, or by health care workers of a health care provider that is  
27 subject to the payments under this section or their representatives,  
28 based on the factors and procedures developed pursuant to Section  
29 100652.

30 100656. (a) (1) The board shall adopt, by regulation, payment  
31 methodologies for the payment of capital expenditures for  
32 specifically identified capital projects incurred by not-for-profit  
33 or governmental entities that are health facilities pursuant to  
34 Chapter 2 (commencing with Section 1250) of Division 2 of the  
35 Health and Safety Code.

36 (2) The board shall prioritize allocation of funding under this  
37 subdivision to projects that propose to use the funds to improve  
38 service in a rural or medically underserved area, or to address  
39 health disparities, including those based on race, ethnicity, national  
40 origin, primary language use, age, disability, sex, including gender

1 identity and sexual orientation, geography, and socioeconomic  
2 status. The board shall consider the impact of any prior reduction  
3 in services or facility closure by a not-for-profit or governmental  
4 entity as part of the application review process.

5 (3) For the purposes of funding capital expenditures under this  
6 section, health care facilities and governmental entities shall apply  
7 to the board in a time and manner specified by the board. All  
8 capital-related expenses generated by a capital project shall have  
9 received prior approval from the board to be paid under CalCare.

10 (b) Approval of an application for capital expenditures shall be  
11 based on achievement of the program standards described in  
12 Chapter 6 (commencing with Section 100660).

13 (c) The board shall not grant funding for capital expenditures  
14 for capital projects that are financed directly or indirectly through  
15 the diversion of private or other non-CalCare program funding  
16 that results in reductions in care to patients, including reductions  
17 in registered nursing staffing patterns and changes in emergency  
18 room or primary care services or availability.

19 (d) A participating provider shall not use operating funds or  
20 payments from CalCare for the operating expenses associated with  
21 a capital asset that was not funded by CalCare without the approval  
22 of the board.

23 (e) A participating provider shall not do either of the following:  
24 (1) Use funds from CalCare designated for operating expenses  
25 or payments for capital expenditures.

26 (2) Use funds from CalCare designated for capital expenditures  
27 or payments for operating expenses.

28 100657. (a) (1) A margin generated by a participating provider  
29 receiving a global budget under CalCare may be retained and used  
30 to meet the health care needs of CalCare members.

31 (2) A participating provider shall not retain a margin if that  
32 margin was generated through inappropriate limitations on access  
33 to health care, compromises in the quality of care, or actions that  
34 adversely affected or are likely to adversely affect the health of  
35 the persons receiving services from an institutional provider, group  
36 practice, or other participating provider under CalCare.

37 (3) The board shall evaluate the source of margin generation.

38 (b) A payment under CalCare, including provider payments for  
39 operating expenses or capital expenditures, shall not take into

1 account, include a process for the funding of, or be used by a  
2 provider for any of the following:

3 (1) Marketing, which does not include education and prevention  
4 programs paid under a global budget.

5 (2) The profit or net revenue, or increasing the profit, net  
6 revenue, or financial result of the provider.

7 (3) An incentive payment, bonus, or compensation based on  
8 patient utilization of health care items or services or any financial  
9 measure applied with respect to the provider or a group practice  
10 or other entity that contracts with or provides health care items or  
11 services, including pharmaceutical products and medical devices  
12 or equipment, to the provider.

13 (4) A bonus, incentive payment, or incentive adjustment from  
14 CalCare to a participating provider.

15 (5) A bonus, incentive payment, or compensation based on the  
16 financial results of any other health care provider with which the  
17 provider has a pecuniary interest or contractual relationship,  
18 including employment or other compensation-based relationship.

19 (6) A bonus, incentive payment, or compensation based on the  
20 financial results of an integrated health care delivery system, group  
21 practice, or other provider.

22 (7) State political contributions.

23 (c) (1) The board shall establish and enforce penalties for  
24 violations of this section, consistent with the Administrative  
25 Procedure Act (Chapter 3.5 (commencing with Section 11340) of  
26 Part 1 of Division 3 of Title 2).

27 (2) Penalty payments collected for violations of this section  
28 shall be remitted to the CalCare Trust Fund for use in CalCare.

29 100658. (a) The board shall, in consultation with the  
30 Department of General Services, the Department of Health Care  
31 Services, and other relevant state agencies, negotiate prices to be  
32 paid for pharmaceuticals, medical supplies, medical technology,  
33 and medically necessary assistive equipment covered through  
34 CalCare. Negotiations by the board shall be on behalf of the entire  
35 CalCare program. A state agency shall cooperate to provide data  
36 and other information to the board.

37 (b) The board shall, in consultation with the Department of  
38 General Services, the Department of Health Care Services, the  
39 CalCare Public Advisory Commission, patient advocacy  
40 organizations, physicians, registered nurses, pharmacists, and other

1 health care professionals, establish a prescription drug formulary  
2 system. To establish the prescription drug formulary system, the  
3 board shall do all of the following:

4 (1) Promote the use of generic and biosimilar medications.

5 (2) Consider the clinical efficacy of medications.

6 (3) Update the formulary frequently and allow health care  
7 professionals, other clinicians, and members to petition the board  
8 to add new pharmaceuticals or to remove ineffective or dangerous  
9 medications from the formulary.

10 (4) Consult with patient advocacy organizations, physicians,  
11 nurses, pharmacists, and other health care professionals to  
12 determine the clinical efficacy and need for the inclusion of specific  
13 medications in the formulary.

14 (c) The prescription drug formulary system shall not require a  
15 prior authorization determination for coverage under CalCare and  
16 shall not apply treatment limitations through the use of step therapy  
17 protocols.

18 (d) (1) The prescription drug formulary system shall include  
19 coverage for prescription drugs in a manner in which there is no  
20 cost sharing for CalCare enrollees.

21 (2) The board may consider cost sharing for providers that  
22 prescribe drugs with a lower cost medically equivalent generic or  
23 lower cost drug substitution.

24 (3) The prescription drug formulary system shall include  
25 antiretroviral drugs that are medically necessary for the prevention  
26 of HIV/AIDS, including preexposure prophylaxis as defined in  
27 former Section 4052.02 of the Business and Professions Code and  
28 postexposure prophylaxis as defined in former Section 4052.03 of  
29 the Business and Professions Code, in a manner in which there is  
30 no cost sharing for CalCare enrollees.

31 (e) The board shall promulgate regulations regarding the use of  
32 off-formulary medications that allow for patient access.

## CHAPTER 6. PROGRAM STANDARDS

## Article 1. Standard of Care

38 100660. CalCare shall establish a single standard of safe,  
39 therapeutic, and effective care for all residents of the state by the  
40 following means:

1       (a) The board shall establish requirements and standards, by  
2 regulation, for CalCare and health care providers, consistent with  
3 this title and consistent with the applicable professional practice  
4 and licensure standards of health care providers and health care  
5 professionals established pursuant to the Business and Professions  
6 Code, the Health and Safety Code, the Insurance Code, and the  
7 Welfare and Institutions Code, including requirements and  
8 standards for, as applicable:

9       (1) The scope, quality, and accessibility of health care items  
10 and services.

11       (2) Relations between participating providers and members.

12       (3) Relations between institutional providers, group practices,  
13 and individual health care organizations, including credentialing  
14 for participation in CalCare and clinical and admitting privileges,  
15 and terms, methods, and rates of payment.

16       (b) The board shall establish requirements and standards, by  
17 regulation, under CalCare that include provisions to promote all  
18 of the following:

19       (1) Simplification, transparency, uniformity, and fairness in the  
20 following:

21       (A) Health care provider credentialing for participation in  
22 CalCare.

23       (B) Health care provider clinical and admitting privileges in  
24 health care facilities.

25       (C) Clinical placement for educational purposes, including  
26 clinical placement for prelicensure registered nursing students  
27 without regard to degree type, that prioritizes nursing students in  
28 public education programs.

29       (D) Payment procedures and rates.

30       (E) Claims processing.

31       (2) In-person primary and preventive care, efficient and effective  
32 health care items and services, quality assurance, and promotion

## CHAPTER 7. FUNDING

## Article 1. Federal Health Programs and Funding

26 100670. (a) (1) The board is authorized to and shall seek all  
27 federal waivers and other federal approvals and arrangements and  
28 submit state plan amendments as necessary to operate CalCare  
29 consistent with this title.

30 (2) The board is authorized to apply for a federal waiver or  
31 federal approval as necessary to receive funds to operate CalCare  
32 pursuant to paragraph (1), including a waiver under Section 18052  
33 of Title 42 of the United States Code.

34 (3) The board shall apply for federal waivers or federal approval  
35 pursuant to paragraph (1) by July 1, 2029.

36 (b) (1) The board shall apply to the United States Secretary of  
37 Health and Human Services or other appropriate federal official  
38 for all waivers of requirements, and make other arrangements,  
39 under Medicare, any federally matched public health program, the  
40 Affordable Care Act, and any other federal programs or laws, as

1 appropriate, that are necessary to enable all CalCare members to  
2 receive all benefits under CalCare through CalCare, to enable the  
3 state to implement this title, and to allow the state to receive and  
4 deposit all federal payments under those programs, including funds  
5 that may be provided in lieu of premium tax credits, cost-sharing  
6 subsidies, and small business tax credits, in the State Treasury to  
7 the credit of the CalCare Trust Fund, created pursuant to Section  
8 100675, and to use those funds for CalCare and other provisions  
9 under this title.

10 (2) To the fullest extent possible, the board shall negotiate  
11 arrangements with the federal government to ensure that federal  
12 payments are paid to CalCare in place of federal funding of, or tax  
13 benefits for, federally matched public health programs or federal  
14 health programs. To the extent any federal funding is not paid  
15 directly to CalCare, the state shall direct the funding and moneys  
16 to CalCare.

17 (3) The board may require members or applicants to provide  
18 information necessary for CalCare to comply with any waiver or  
19 arrangement under this title. Information provided by members to  
20 the board for the purposes of this subdivision shall not be used for  
21 any other purpose.

22 (4) The board may take any additional actions necessary to  
23 effectively implement CalCare to the maximum extent possible  
24 as an independent single-payer program consistent with this title.  
25 It is the intent of the Legislature to establish CalCare, to the fullest  
26 extent possible, as an independent agency.

27 (c) The board may take actions consistent with this article to  
28 enable CalCare to administer Medicare in California. CalCare shall  
29 be a provider of supplemental insurance coverage and shall provide  
30 premium assistance for drug coverage under Medicare Part D for  
31 eligible members of CalCare.

32 (d) The board may waive or modify the applicability of any  
33 provisions of this title relating to any federally matched public  
34 health program or Medicare, as necessary, to implement any waiver  
35 or arrangement under this section or to maximize the federal  
36 benefits to CalCare under this section.

37 (e) The board may apply for coverage for, and enroll, any  
38 eligible member under any federally matched public health program  
39 or Medicare. Enrollment in a federally matched public health  
40 program or Medicare shall not cause a member to lose a health

1 care item or service provided by CalCare or diminish any right the  
2 member would otherwise have.

3 (f) (1) Notwithstanding any other law, the board, by regulation,  
4 shall increase the income eligibility level, increase or eliminate  
5 the resource test for eligibility, simplify any procedural or  
6 documentation requirement for enrollment, and increase the  
7 benefits for any federally matched public health program and for  
8 any program in order to reduce or eliminate an individual's  
9 coinsurance, cost-sharing, or premium obligations or increase an  
10 individual's eligibility for any federal financial support related to  
11 Medicare or the Affordable Care Act.

12 (2) The board may act under this subdivision, upon a finding  
13 approved by the Director of Finance and the board that the action  
14 does all of the following:

15 (A) Will help to increase the number of members who are  
16 eligible for and enrolled in federally matched public health  
17 programs, or for any program to reduce or eliminate an individual's  
18 coinsurance, cost-sharing, or premium obligations or increase an  
19 individual's eligibility for any federal financial support related to  
20 Medicare or the Affordable Care Act.

21 (B) Will not diminish any individual's access to a health care  
22 item or service or right the individual would otherwise have.

23 (C) Is in the interest of CalCare.

24 (D) Does not require or has received any necessary federal  
25 waivers or approvals to ensure federal financial participation.

26 (g) To enable the board to apply for coverage for, and enroll,  
27 any eligible member under any federally matched public health  
28 program or Medicare, the board may require that every member  
29 or applicant provide the information necessary to enable the board  
30 to determine whether the applicant is eligible for a federally  
31 matched public health program or for Medicare, or any program  
32 or benefit under Medicare.

33 (h) As a condition of continued eligibility for health care items  
34 and services under CalCare, a member who is eligible for benefits  
35 under Medicare shall enroll in Medicare, including Parts A, B, and  
36 D.

37 (i) The board shall provide premium assistance for all members  
38 enrolling in a Medicare Part D drug coverage plan under Section  
39 1860D of Title XVIII of the federal Social Security Act (42 U.S.C.  
40 Sec. 1395w-101 et seq.), limited to the low-income benchmark

1 premium amount established by the federal Centers for Medicare  
2 and Medicaid Services and any other amount the federal agency  
3 establishes under its de minimis premium policy, except that those  
4 payments made on behalf of members enrolled in a Medicare  
5 Advantage plan may exceed the low-income benchmark premium  
6 amount if determined to be cost effective to CalCare.

7 (j) If the board has reasonable grounds to believe that a member  
8 may be eligible for an income-related subsidy under Section  
9 1860D-14 of Title XVIII of the federal Social Security Act (42  
10 U.S.C. Sec. 1395w-114), the member shall provide, and authorize  
11 CalCare to obtain, any information or documentation required to  
12 establish the member's eligibility for that subsidy. The board shall  
13 attempt to obtain as much of the information and documentation  
14 as possible from records that are available to it.

15       (k) The board shall make a reasonable effort to notify members  
16 of their obligations under this section. After a reasonable effort  
17 has been made to contact the member, the member shall be notified  
18 in writing that the member has 60 days to provide the required  
19 information. If the required information is not provided within the  
20 60-day period, the member's coverage under CalCare may be  
21 suspended until the issue is resolved. Information provided by a  
22 member to the board for the purposes of this section shall not be  
23 used for any other purpose.

24 (1) The board shall assume responsibility for all benefits and  
25 services paid for by the federal government with those funds.

## Article 2. CalCare Trust Fund

29       100675. (a) The CalCare Trust Fund is hereby created in the  
30 State Treasury for the purposes of this title to be administered by  
31 the CalCare Board. Notwithstanding Section 13340, all moneys  
32 in the fund shall be continuously appropriated without regard to  
33 fiscal year for the purposes of this title. Any moneys in the fund  
34 that are unexpended or unencumbered at the end of a fiscal year  
35 may be carried forward to the next succeeding fiscal year.

36 (b) Notwithstanding any other law, moneys deposited in the  
37 fund shall not be loaned to, or borrowed by, any other special fund  
38 or the General Fund, a county general fund or any other county  
39 fund, or any other fund.

1       (c) The board shall establish and maintain a prudent reserve in  
2 the fund to enable it to respond to costs including those of an  
3 epidemic, pandemic, natural disaster, or other health emergency,  
4 or market-shift adjustments related to patient volume.

5       (d) The board or staff of the board shall not utilize any funds  
6 intended for the administrative and operational expenses of the  
7 board for staff retreats, promotional giveaways, excessive executive  
8 compensation, or promotion of federal or state legislative or  
9 regulatory modifications.

10      (e) Notwithstanding Section 16305.7, all interest earned on the  
11 moneys that have been deposited into the fund shall be retained  
12 in the fund and used for purposes consistent with the fund.

15 proposed under Section 100680.

16       (2) Federal payments received as a result of any waiver of  
17 requirements granted or other arrangements agreed to by the United  
18 States Secretary of Health and Human Services or other appropriate  
19 federal officials for health care programs established under  
20 Medicare, any federally matched public health program, or the  
21 Affordable Care Act.

22       (3) The amounts paid by the State Department of Health Care  
23 Services that are equivalent to those amounts that are paid on behalf  
24 of residents of this state under Medicare, any federally matched  
25 public health program, or the Affordable Care Act for health  
26 benefits that are equivalent to health benefits covered under  
27 CalCare.

28       (4) Federal and state funds for purposes of the provision of  
29 services authorized under Title XX of the federal Social Security  
30 Act (42 U.S.C. Sec. 1397 et seq.) that would otherwise be covered  
31 under CalCare.

32       (5) State moneys that would otherwise be appropriated to any  
33 governmental agency, office, program, instrumentality, or  
34 institution that provides health care items or services for services  
35 and benefits covered under CalCare. Payments to the fund pursuant  
36 to this section shall be in an amount equal to the money  
37 appropriated for those purposes in the fiscal year beginning  
38 immediately preceding the effective date of this title.

1       (g) All federal moneys shall be placed into the CalCare Federal  
2 Funds Account, which is hereby created within the CalCare Trust  
3 Fund.

4       (h) Moneys in the CalCare Trust Fund shall only be used for  
5 the purposes established in this title.

6       (i) (1) Before the delivery of the fiscal analysis required  
7 pursuant to Section 100620:

8           (A) Moneys in the CalCare Trust fund shall not be used for  
9 startup and administrative costs to implement Section 100612.

10          (B) Moneys in the CalCare Trust Fund may be used to design  
11 and commission the fiscal analysis required pursuant to Section  
12 100620.

13          (2) After delivery of the fiscal analysis required pursuant to  
14 Section 100620, moneys in the CalCare Trust Fund may be used  
15 for startup and administrative costs to implement Section 100612.

16       100676. (a) The board annually shall prepare a budget for  
17 CalCare that specifies a budget for all expenditures to be made for  
18 covered health care items and services and shall establish  
19 allocations for each of the budget components under subdivision
